

Use Case Information

Use Case ID: UC-03

Use Case Name: Reserve Food Batch

Primary Actor: Shelter Coordinator

Preconditions

1. The Shelter Coordinator must be a registered and verified user.
2. At least one surplus food batch must be available.
3. The selected food batch must not have expired.

Postconditions

1. The selected food batch is reserved for the Shelter Coordinator.
2. A pickup window is confirmed.
3. A pickup verification code is generated.
4. The reservation details are recorded by the system.

Main Success Scenario

1. The Shelter Coordinator logs into the Food Bank Surplus Redistribution Platform.
2. The system displays available surplus food batches.
3. The Shelter Coordinator selects an available food batch.
4. The system displays the food details, quantity, dietary tags, and expiry time.
5. The Shelter Coordinator selects a suitable pickup window.
6. The system checks whether the food batch and pickup window are available.
7. The system reserves the selected food batch.
8. The system generates a pickup verification code.
9. The system displays the reservation confirmation and pickup details.
10. The use case ends successfully.

Alternate Flow – Food Batch Unavailable

4a. The selected food batch has already been reserved by another shelter or has expired.

4a1. The system displays a message that the food batch is unavailable.

4a2. The system returns the Shelter Coordinator to the available food batch list.

4a3. The Shelter Coordinator selects another available food batch.

4a4. The system continues the reservation process from Step 4.
